MOSCOW OBLAST MEDICAL WORKERS CONFERENCE

Delegates representing some 175,000 medical workers attended the Fifth Oblast Conference of Medical Workers of the City of Moscow and Moscow Oblast.

Tov. O. Ye. Shaulina, Representative of the Presidium for the Oblast Committee of the Union, and other speakers stressed the great achievements in medical science fostered by various medical professional unions.

The medical enterprises unification program, farm medical aid, and industrial medical service were particular topics of discussion. It was noted that very little had been done to translate into standard practice throughout the USSR the experience of noted doctors, obstetricians, and other medical specialists.

• Delegate Ye. A. Alembina criticized the operation of Oblast Committee Unions, stating that they were motivated by wrong ideals and did not have the best interests of the people in mind when formulating their plans. He also criticized the services afforded by sanatoriums and rest homes operated by the Central and Oblast Committee of the Union.

Representatives of the Presidium of the Central Committee for the Medical Workers Unions USSR were also present. Among them were M. V. Il'in and V. P. Drabov, chief, Moscow Oblast Public Health Department. G. N. Beletskiy, Minister of Public Health Service RSFSR, was also present.
